GENERAL POST OFFICE, CORNER [OF BOURKE STREET EAST
AND ELIZABETH STREET.

[For further detail and lists of mails see Government Official Post Office Guide,
published monthly.]

Prepayment of Postage.

The postage upon all letters, packets, and newspapers must be prepaid by affixing stamps thereon except it may happen that any Postmaster shall not have any stamps of the requisite value for sale, in which case the postage may be prepaid in coin, and shall be acknowledged by such Postmaster on the face or cover of such letter, packet, or newspaper.

Inland letters and packets bearing postage stamps equal in value to one single rate (letters not exceeding half an ounce, inland 2d., packets not exceeding four ounces 2d.), will be regularly transmitted; but if over the above weight, will be charged on delivery double the amount of postage which may have been omitted to be prepaid.

Inland and foreign letters, packets, and newspapers, posted without any stamp being affixed thereon, and unpaid, in town, country, and foreign letters and packets stamped or paid less than a single rate of postage, are to be sent without delay to the General Post Office to be dealt with according to law.

Letters addressed to the United Kingdom, South Australia, Western Australia, and New Zealand, will be forwarded if a single rate be prepaid, and the deficient postage, together with a fine equal to a single rate, will be charged on delivery.

It is requested that letters addressed to France, and countries *via* France, intended to be sent by the travelling Post Office between Marseilles and Lyons, may be endorsed above the address "BY TRAVELLING POST," in order to facilitate the despatch of the mails for France.

It is suggested that all letters intended for transmission by the Royal Mail contract steamers should be secured with gum or wafers, the use of sealing wax having been found to cause delay in separating letters, and in some instances to lead to addresses on envelopes being rendered illegible.

Exemptions from Postage Rates.

Letters on the Government service, contained in official envelopes or covers, described on the outside thereof as being "On Her Majesty's Service," and impressed with a "a frank stamp" with the title of the Governor or of a Responsible Minister of the Crown thereon, or the titles of the officers in command of any portion of Her Majesty's land and sea forces, and the officers of Her Majesty's Ordnance or Commissariat respectively, are exempt from postage and all fees, including registration fee.

The *Government Gazette*, in printed covers, with the words "On Her Majesty's Service," open at both ends, and bearing the imprint of the Government Printer (if received at the General Post Office from the Office of the Government Printer, but not otherwise) to be exempt from postage.

Letters, newspapers, and packets sent by post from any place beyond the limits of the colony are to be transmitted and delivered free of charge, except in cases where it is necessary to collect postage under an arrangement with the country or colony from which such letters, packets, and newspapers have been received.

All letters and packets relating exclusively to the execution of "*The Registration of Births Deaths and Marriages Statute*," received from places in Victoria, addressed to the Registrar-General, every Deputy-Registrar, and every person empowered by law, now or hereafter to be in force, to celebrate marriages, are to be forwarded and delivered according to address free from the duty of postage, provided that such letters and packets shall be in covers open at the sides.

Re-Direction of Letters.

Letters, packets, and newspapers may, before delivery, be re-directed from and to any place *within Victoria*, as may be required, without any charge whatever. If re-directed to places *beyond the colony*, except in cases hereinafter mentioned, the foreign rate of postage, together with all other charges, must be fully prepaid before transmission.

Letters, packets, and newspapers may be re-directed to the United Kingdom, South Australia, Western Australia, New Zealand, Tasmania, and Queensland, without prepayment of additional postage, which will, how-

ever, in the case of letters re-directed to the United Kingdom, New Zealand, Western Australia, and Queensland, be charged on delivery.

Registered Letters.

For the Registration of Letters, stamps to the value of sixpence must be affixed, in addition to the postage.

Late fees must be paid, in all cases, by stamps affixed to the letters.

Newspapers must be sent without a cover, or in a cover open at the ends, and the words "Newspaper only" may be placed on the outside of the newspaper or cover, at the option of the sender.

PACKETS.

The regulations formerly affecting foreign packets are now also applied to inland and town packets, and a packet whether for transmission within or beyond the colony, may be forwarded if properly prepaid and posted in accordance with the undermentioned regulations :—

1. A packet may contain any number of separate books or other publications (including printed or lithographed letters), photographs (when not on glass, or in cases containing glass), prints or maps, and any quantity of paper, parchment, or vellum, or patterns or samples of merchandise; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed or plain, or a mixture of these; but no printed matter or prints will be allowed except such as may be printed on paper, parchment or vellum. Further, all legitimate binding, &c., mounting, or covering of a book, &c., or a portion thereof, will be allowed, whether such

binding be loose or attached, as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto. Patterns, or samples (except such as are intended for transmission within the colony, or to the other Australian colonies and New Zealand) must not have a value of their own apart from their mere use as patterns or samples.

2. Every packet must be sent either without a cover, or in a cover open at the ends or sides, so as to admit of the enclosures being removed for examination. For the greater security of its contents, the packet may be tied at the ends with string, but in such case the Postmaster is authorised to cut the string, though if he do so, he must again tie up the packet as before. Samples of seeds, drugs, and so forth, which cannot be sent in open covers may be enclosed in bags of linen or other material, tied round the neck so as to be easily loosened and refastened, or (as inland packets only) in closed transparent bags; but foreign packets must not be sent in closed bags, although transparent.

3. No packet may contain anything which is sealed, or otherwise closed against inspection, nor any matter or thing not hereinbefore specified; nor must there be any letter nor any communication of the nature of a letter, whether separate or otherwise, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not to be regarded as a letter. Indeed, as respects the name and address of the sender, not only is the writing permitted, but it is even recommended; so that if the cover come off, or for any other reason, the packet cannot be forwarded, it may be returned. Packets containing patterns must not bear any writing, other than the name and address of the person for whom they are intended, the name and address of the sender, a manufacturer's, or trade mark, number, and the price of the articles.

4. Packets containing seeds, not sent as samples, may be forwarded as inland packets only; such packets must not, however, exceed eight ounces in weight, and must be either in bags or papers, tied so that they may be easily opened and refastened, or in closed transparent bags.

5. No packet must exceed two feet in length, one foot in width, or one foot in depth; and if any packet exceeding these dimensions be presented, it must not be received.

6. Any packet closed against inspection, that may be posted, bearing postage stamps equal in value to the proper postage as an inland or foreign letter, not exceeding half an ounce in weight, as provided by the Act afore-

said, shall be treated in the same manner as a letter exceeding one half ounce in weight, and posted with only one single rate of postage thereon.

7. Any packet which shall be posted in fraud or violation of these regulations, or shall have no postage, or less than one rate of postage as a packet not exceeding four ounces in weight paid thereon, or shall contain or have on the outside thereof any profane, obscene, or libellous address, signature, picture, or thing, must be sent to the dead letter office forthwith.

8. If an inland packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of one rate as a packet of four ounces in weight, it may be forwarded to destination, double the deficient postage being charged on delivery.

The following are the rates chargeable on packets posted in the colony :—

Not exceeding four ounces (inland) 2d., (foreign), 6d.

For every additional two ounces or fraction of two ounces (inland), 1d., (foreign), 3d.

Postmasters may refuse to transmit by post any packet exceeding sixteen ounces in weight, or of inconvenient form or dimensions, or containing or reasonably suspected to contain articles likely to injure the other portions of the mail, or the person of any officer or servant of the Post Office.

Any packet posted in fraud or violation of the Post Office Statute, or of any Act of the Customs, or containing any letter or epistolary communication, or having less than one rate prepaid as a packet not exceeding four ounces in weight, must be sent to the Dead Letter Office.

If a packet addressed to the United Kingdom, India, Ceylon, Mauritius, Hong Kong, Malta, Gibraltar, Tasmania, Western Australia, South Australia, or New Zealand, be not sufficiently prepaid according to its weight but, nevertheless, a single packet rate be prepaid, it will be forwarded, charged with the deficient postage, and with an additional packet rate. This does not apply to packets addressed to New South Wales or Queensland, which must be fully prepaid.

Electric Telegraph.

HEAD RECEIVING OFFICE,

Corner of William-st., and Flinders-lane west.

Regulations and conditions under which Telegraphic Messages are authorised to be transmitted in Victoria.

1. To lessen as much as possible any liability to error in the transmission of messages from

defective manuscript, it is desirable that the use of figures should be avoided, and that words at length be substituted; and the public, in using the Electric Telegraph, are requested to be particular in giving a full and correct address to every message, so that the least possible delay in delivery may occur.

2. Messages will be transmitted in the order of their reception, and no precedence will be allowed, except for special despatches on the service of the Government, the arrest of criminals, and in cases of pressing emergency, sickness, or death.

3. All messages will be held *strictly confidential*.

4. Payment of charges in advance will be required, except for replies to interrogatory messages on which the sender may have written the words "Reply will be paid for;" but special arrangements may be made for the receipt of messages payable by the receiver, either by depositing security at the receiving office, or by furnishing written authority covering the cost of transmission.

5. No charge will be made for the date, address, or signature to any message; and it is particularly requested that the two latter may be as clear and explicit as possible.

6. Messages must be written with ink, in a clear and legible manner, and bear a proper date, address, and genuine signature in the usual handwriting of the sender.

7. Messages will be delivered free of charge within one mile of the office; over that distance cab or omnibus fare will be charged, when incurred; and for Messages to be delivered on shipboard, an extra charge to cover the disbursement for boat expenses will be made.

8. Messages may be transmitted in cypher in the English language on payment of an additional charge of fifty per cent., but cypher words must not average more than two syllables.

9. On special occasions, when the communication may be kept open during the night, an additional charge equal to one-third of the ordinary rate will be required upon all messages received for transmission later than 8 p.m.

10. Every reasonable exertion will be used, and precaution adopted, to secure the greatest promptness, accuracy, and despatch in conducting the business of the Telegraph; but no responsibility will be assumed for any errors, omissions, or delays in the transmission or non-transmission, delivery or non-delivery of any message, from whatever cause the same may arise. In order, however, to afford the fullest security for the correctness of a transmitted message, the sender may obtain a copy of the message as repeated back from the Receiving Office, if within the bounds of this colony, upon payment of one-half the original charge upon such message; but in no case will any pecuniary responsibility be recognised beyond the extent of £5.

11. In the event of serious delay occurring

to prevent the transmission of a message within a reasonable time, or sufficient to destroy the value of the despatch, notice will be conveyed to the sender, should his address be known, and the message, together with the amount paid thereon, be returned, if desired.

12. In cases where immediate replies are required, the messenger will be instructed to wait five minutes after the delivery, provided the message may contain the words "Reply by telegraph immediately."

13. Printed forms upon which messages

should be written may be obtained upon application at the office; but all messages, whether written upon the prescribed forms or upon plain paper, will be considered as tendered for transmission, and transmitted to their destination under the several conditions and stipulations above detailed.

14. The offices will be kept open for the transmission of messages by the public generally between the hours of 8.30 a.m. and 8 p.m. (Sundays excepted).

Revised Scale of Charges for the Transmission of Telegrams within the Colony of Victoria, including Offices in other Colonies.

Special arrangements may be made for Deposits of £5000 and upwards.

Deposits for Three or Six months may, at the option of the Bank, be withdrawn at any time, Interest being allowed at the Call-rate.

The Investments are restricted by the Articles of Association to Mortgages on Real Estate in Victoria, and the Depositors are secured by the whole of the Funds so invested, and by the additional guarantee of the uncalled Capital, thus affording the most undoubted security.

The Bank also acts as General Financial Agent, and undertakes the Investment of the Capital of Absentees, Trustees, and others, in first-class Mortgages in Victoria; the interest on such Investments being guaranteed and paid half-yearly at the Offices of the Bank.

Loans are made on Freehold Property at current rates, repayable by instalments if required. Arrangements may also be made for obtaining a Cash-credit on the basis of approved freehold security, by which interest would be chargeable only on the sum used.

## LIFE BRANCH.

The following are the Conditions endorsed on the Company's Policies, and will be found to contain very extended geographical limits, and the utmost liberality consistent with safety.

**I. Limits of Residence.**—Persons whose lives are insured, not being engaged in any Military, Naval, or Maritime occupation, may proceed to and reside in any part of the globe comprised within the following limits, without the payment of any extra premium, except for sea risk (see Conditions II.) viz. :—

1. The whole of Europe, without limitation.
2. The whole of North America situate to the North of the 36th degree, North latitude.
3. The whole of the colonies of New Zealand and Tasmania, without limitation.
4. Such parts of the colonies of the Cape of Good Hope and Australia as are situated South of the 23rd degree of South latitude.

But this insurance shall become void if the person whose life is insured shall go beyond the above limits, unless such extra premium shall have been previously paid to the Company as the Directors shall consider proportionate to the additional risk.

**II. Sea Risk.**—A small per centage is charged for sea risk, except in passing in a decked vessel between one part of Australia and another, or between Australia, Tasmania, and New Zealand, or any of them.

**III. Renewal of Policy.**—No insurance shall be in force until the day on which the premium shall have been actually paid. The renewal premium shall be due to the Company on the same day in each succeeding year, and if not paid within one calendar month from that day, the insurance shall be out of force.

**IV. Duelling, Suicide, &c.**—In the event of persons insuring their own lives, and afterwards dying by their own act, or by the hands of justice, or in consequence of having been engaged in a duel, the policy shall, notwithstanding such death, remain in full force so far as regards the actual amount of the interest of any party to whom the policy shall have been legally assigned for an adequate pecuniary consideration, and where no such assignment shall have been made, the Company undertakes to pay to the family of the deceased, in lieu of the sum insured, the full sum which would have been given for the surrender of the policy on the day preceding such death.

## LIFE BRANCH.

**V. Proof of Death.**—All claims on the Company for sums insured shall be supported by a solemn declaration, to be made before a justice of the peace, to prove where and by what cause the death shall have happened, also by certificates of burial, and by such other documents as the Directors may reasonably require. When such proof shall have been satisfactorily made, the amount of the insurance, with all outstanding bonuses thereon, shall be paid **WITHIN ONE CALENDAR MONTH** following.

**VI. Division of Profits.**—At the first division in 1869, and at each subsequent triennial division, a portion of the profits arising from policies issued on the participation scale of premiums, will be apportioned amongst the then existing participating policy holders, in proportion to the amount of premiums paid during the interval. The bonus thus apportioned will be receivable either by a payment in cash, by an equivalent reduction of the future annual premiums, or by an equivalent augmentation of the sum insured, according to the option of the policy-holder. Such option must, however, be stated at the time of effecting the insurance, or otherwise the bonus can only be applied in augmentation of the sum insured.

**VII. Military Clause.**—Persons employed in a volunteer, naval, or military capacity, are insured at the same rate of premium as civilians, during such time only as their services are confined within the limits of the colony in which they may reside at the time of effecting the insurance; but this policy will become void if the person whose life is insured should enter the regular army or navy, or should engage in active foreign service, without the previous payment of such extra premium as the Directors may require.

*Any further information, with Forms of Proposal, &c., will be furnished on application at Head Office, or by any of the Company's Agents.*

*Written application to be forwarded to*

**CHARGES OF MANAGEMENT.**—The Outside Expenditure for the general management of the Company, chargeable to the Life Department is absolutely restricted by the Deed of Settlement to 10 per Cent. of the Net Life Income. Attention is specially called to this point, as the proportion of Premiums expended for management must largely influence Profits and Bonuses.

The Life Bonus of this Company averaged 46 per cent. of the Premiums paid, in some cases rising to 65, 70 and even 75 per Cent. Substantial benefits have, therefore, been conferred on the Assurers, and as the Life Liabilities were valued on the principle of Net Premiums, assuming only 3 per cent. interest, there is every reason to expect equally good Bonuses in the future.

FIRE DEPARTMENT.

The Company grants Insurances against Fire on nearly every description of property, at current rates of premiums.

LIFE DEPARTMENT.

The Life business is divided into two distinct branches:—

1st. *The Non-participating Branch*—The Assured in which receive no additions to their Policies, the Premiums being calculated on the lowest scale consistent with safety; and

2nd. *The Participating Branch*—In which the whole profits, less a fixed per centage of one-tenth of the Premiums for Management and Guarantee of the sums assured, belong to the Policy-holders; and in reckoning these profits, the Company is, under its new Act of Parliament (1865,) precluded from deducting anything beyond what is actually paid away as Commission to Agents. The necessity felt by all purely Mutual Societies of setting aside a portion of their Profits to form a Guarantee Fund is in this way avoided, and at the same time that economy, which is the boast of the mutual system, is insured.

ONE-THIRD of the Annual Premiums (under Table I, with and without participation in profits,) may remain on credit to be deducted from the sum assured when the Policy becomes a claim, or be previously paid off at convenience, interest being charged thereon at the rate of six per cent. per annum. Or,

ONE-HALF of the FIRST FIVE Annual Premiums may in like manner remain on credit till the Policy becomes a claim.

GIFT BOOK FOR THE DRAWING ROOM,  
AND  
SOUVENIR FOR HOME FRIENDS.

VICTORIA ILLUSTRATED,

SECOND SERIES, ROYAL 4to.,

CONTAINING FORTY-FOUR HIGHLY-FINISHED STEEL ENGRAVINGS, WITH DESCRIPTIVE  
LETTER-PRESS, ILLUSTRATIVE OF MELBOURNE AND SUBURBS, GEELONG,  
BALLARAT, SANDHURST, CASTLEMAINE, AND KYNETON.

BOUND IN CLOTH, ELEGANT, £1 11s. 6d.

In the production of this Series the Publishers have made such a selection of subjects as, while not interfering with its character as a Present or Drawing-room Book, will enable those at a distance to form an approximate idea of the material and social progress of the Colony.

The Engravings have been executed in the best style; the descriptive letter-press is in new and clear type, and printed on superior paper—no expense having been spared by the Publishers to make this a work deserving the patronage of the Public.

The Publishers intimate that they have made arrangements by which they can transmit to any part of Great Britain and Ireland, one or any number of copies at a cost for carriage of 3s. 6d. per copy, and that *no* copies of this work will be sold in England, the sale being confined exclusively to the colonies.

is the Sole Manufacturer of the above Buckle, the principle and application of which is illustrated in the annexed cuts. It will be seen that the straps lie parallel on each other, and there is no bending back of the leather, and being securely locked there is no back-play. They present a far neater appearance than any other fastener, and not the least of the advantages which they possess is that they are as easily unfastened when a strain is on them (as when a horse is down) as when slack. The trace buckles are separated from the leather work, and can be cleaned apart. The tug buckles, on the other hand, are made fast to the shaft tug, the back band passing through and being locked in its place by a strap attached to the tug for the purpose.

Borwick's Baking Powder

Makes bread light and digestible in a few minutes without the use of yeast. Pastry and Puddings should never be made without it, as it renders them light and easy of digestion.

TESTIMONIALS.

In answer to your request, I am happy to say I have tested Borwick's Baking Powder, and it proves to be very good, when properly used.

Yours, &c.,

Government House, Sydney, N. S. Wales, 19th March, 1867. J. E. GUERIN, Head Cook.

BORWICK'S

I hereby certify that I have made a careful analysis of BORWICK'S BAKING POWDER. The ingredients are all of the purest description, perfectly wholesome, well and proportionably mixed, and will keep good in any climate. Indeed, I consider it a beautiful farinaceous powder, and well qualified for raising bread, pastry, &c.

CHARLES WATT, Analytical Chemist.

Sydney, 4th May, 1866.

I have used BORWICK'S BAKING POWDER for the last twelve years, and consider it to be an invaluable help to thrifty housewives who delight in making home happy, as they can thereby make cakes and puddings for their families at a much less cost than with eggs.

Yours, &c., M. ROBERTS, Matron to the Female Refuge, Sydney.

BAKING

Panama, New Zealand, and Australian Royal Mail Steamship "Kaikoura."

Mr. Borwick.

May 28th, 1867.

Dear Sir—Having been chief pastrycook at the Royal Hotel, Sydney, for the period of eighteen months, and for the last sixteen months pastrycook and baker on board the above ship, I have great pleasure in recommending your Baking Powder to the notice of the public. During the above periods I have constantly used it, and consider it the best preparation of the kind that ever came under my notice.—I have the honour to remain yours truly.

RICHARD ADAMS.

POWDER.

Having tried BORWICK'S BAKING POWDER, we consider it invaluable, especially in passenger and emigrant ships, as it makes bread and pastry light and digestible, effecting a great saving in time and labour, as the bread is prepared in a few minutes, instead of the ordinary slow process of fermentation by yeast.

LAMPLOUGH'S

EFFERVESCING

PYRETIC SALINE.

Important to all, more especially those who have charge of others, to Travellers, English Ministers, British Consuls, and Europeans seeking to reside in safety in Tropical and Foreign Climates.

Her Majesty's Representative, the Governor of Sierra Leone, in a Letter of Request for an additional supply of the PYRETIC SALINE, states.—"It is of GREAT VALUE, and I shall rejoice to hear it is in the hands of all Europeans visiting the Tropics.

Dr. SKEPTIMUS GIBBON, of the London Hospital, in his letter, states, "It is the best preparation of the kind I have ever met with. Its usefulness in the treatment of disease has long been confirmed by Medical experience. Its superiority consists in its being rendered thoroughly anhydrous, &c. &c. I speak from adequate knowledge of the preparation, having been in the habit of using it in private practice for many years, and having taken a large quantity of water when I went as Physician to the Smyrna Hospital. In hot climates the preparation is of especial value.—August 7, 1857.

Numbers who have previously suffered from Climates unsuited to the constitution, or the injurious use of mercury, inducing disease in its Protein form, who had visited our native Bethesdan waters and pools in situ, have, by the daily taking the PYRETIC SALINE, recovered their wonted health and vigour. HALF A TEASPOONFUL, taken in a tumbler of water, contributes more to the refreshment of the body than any known beverage. Invigorating and vitalising the blood, it alleviates thirst in a most agreeable manner, and furnishes the system with those saline principles that are essential to health.

SICKNESS, HEADACHE, and NAUSEA are in most cases immediately relieved by taking a teaspoonful in a tumbler of cold water. This can be repeated once or twice in two hours, if needful.

SEA VOYAGES.—It is a very valuable accompaniment, and should on no account be omitted. It instantly allays the sickness.

For BILIOUS CONSTITUTIONS, giving rise to vitiated Secretions, Indigestion, and Eruptions on the Skin, a teaspoonful should be taken daily with the dinner in a tumbler of water, and the same quantity on going to bed.

In cases of DIARRHŒA, put as much Magnesia as will lie on a shilling into half a tumbler of water; let this fall to the bottom of the glass, and then stir into it a teaspoonful of the Saline, and drink during effervescence.

MAY BE OBTAINED OF THE PROPRIETOR,

H. LAMPLOUGH, CONSULTING CHEMIST,

And all respectable Chemists, in Bottles, 2s. 6d., 4s. 6d., 11s., 21s.

TO MERCHANTS, CAPTAINS & SHIPPERS.

These UNIQUE PREPARATIONS are universally held in high esteem. From their general use in all civilised

HUBBUCK'S PATENT WHITE ZINC PAINT.

By their process, which is patented, the Pure White Zinc Paint is cheaper than White Lead.

For internal and external Painting, HUBBUCK'S ZINC PAINT is the most durable and beautiful, and does not stain or discolour with the London atmosphere, or in the neighbourhood of Gas and Chemical Works. In all climates it is superior to other Paint for the inside and outside of Houses, Ships, Lighthouses, Iron Roofing and Bridges.

ADULTERATIONS.

Some Paint Grinders have been selling adulterated Zinc Paint. No workman can produce good work with such material. Those who have had the Patent White Zinc Paint from Grinders who have not adulterated it, will not use any other Paint for their best work.

To prevent the prejudice which the inferior article must produce, each cask of pure White Zinc is stamped—

“HUBBUCK, LONDON PATENT.”

Adulterated Zinc Paint, so marked, having been shipped to Foreign Markets, the Patentees offer a reward of FIFTY POUNDS for information which shall lead to the conviction, in an English or Colonial Court, of those who have pirated their mark.

GRINDERS, EXPORTERS, AND RETAILERS ARE ALL LIABLE FOR ITS SALE.

**THOMAS HUBBUCK & SON,
WHITE LEAD, OIL, PAINT & VARNISH WORKS,
24 LIME STREET, LONDON.**

“For public schools, and all rooms occupied by children, there will now be no excuse for using poisonous paints. Parents have remarked that their children, on returning to newly painted houses, have suffered in health. The reason is evident; the breath extracts the poison from White Lead, and the lungs draw in the deadly vapour.”

“Among other tests to which it has been subjected, has been that of painting the hold of a sugar vessel, which, after a voyage to St. Kitt's and back, was found, after washing, to be as white as the first day the paint was applied.”—*John Bull*, September 14, 1850.

HUBBUCK'S ANTI-CORROSIVE PAINTS,

The most valuable protection to Iron Roofs, Bridges, Piers, Ships and Buildings exposed to stormy weather and scorching sun; they soon become extremely hard and do not blister, and are very durable.

They are made of Stone, Slate, Copper, White, Blue, Green, or any other Colour that is desired.

HUBBUCK'S ANTI-OXIDATION COMPOSITION,

For Coating Iron and Wood Ships' Bottoms; a preservative against fouling and corrosion. This Composition is ready for immediate use, and obviates the waste of carrying unmixed Paints, Oils, Driers, &c. It is also applicable to all the purposes of other paints.

HUBBUCK'S PALE BOILED OIL

Has less colour than Raw Linseed Oil, is a quick, hard, and certain drier for White and Light Coloured Paints.

# GWYNNE & CO.'S

## PATENT

# CENTRIFUGAL PUMPING MACHINERY,

*For Irrigation, Drainage, Manufacturing and other uses.*

This MACHINERY has received the HIGHEST commendation; and Thousands of ENGINEERS, MANUFACTURERS, and others using it, can be referred to in all parts of the World.

**First Prize Medal for Pumping Engines, Paris, 1867.**  
**Prize Medals Awarded at the International Exhibitions of London, 1862.**  
**Cologne, 1865, and New York, 1853; Gold Medal at Antwerp; Silver**  
**Medals at Rouen, Nantes, Louvain, Calcutta, &c. &c.**

**G**WYNNE & Co. have erected the largest Pumping Machinery in the World; they have also erected more of all powers than any other Firm in existence, and are prepared to contract that their Machinery will do more work with less cost of coal than any other maker's.

### FOR MANUFACTURING PURPOSES

They are largely in use; among others by Paper Makers, Brewers, Distillers, Dyers, Chemists, Tanners, Sugar Refiners, Bleachers, Calico Printers, Carpet Manufacturers, Engineers and Iron-founders, Woollen Cloth and Blanket Manufacturers, Oil Refineries, Soap, Alkali, Salt, Starch, and Candle Works, Water Works, Lime and Cement Works, Quarries, Coal and Iron Mines, Sheep Washing, Public Baths, Cotton, Flax, Match, Felt, Oil, and other Mills, &c. &c. Numerous references to all the foregoing can be had on application.

### FOR DRAINAGE WORKS

G. and Co.'s Patent Centrifugal Pumps are in very extensive use, and some of the largest tracts of land in this country, and in Holland, Italy, Austria, France, Belgium, Denmark, Demerara, &c., are kept dry by their use.

### FOR IRRIGATION WORKS

They have been selected for very extensive Works in Egypt, Turkey, Spain, France, Belgium, India, Ceylon, Java, China, Australia, Porto Rico, &c. &c.

### FOR EMPTYING DRY OR GRAVING DOCKS

They are quite unequalled, and will be found to excel all other arrangements, discharging a body of water in proportion to the lift, the speed of engines and power remaining the same; they will empty a dock in a shorter time, and with much less power than is requisite with any other system. The first cost of machinery, the erection, and the foundations and brick-work necessary, are much less expensive than with any other arrangement, and the cost of keeping in thorough working order is merely nominal.

**Estimates for any Situation Forwarded upon Application.**

*LISTS OF PRICES FREE on Receipt of Six Stamps.*
