Electric Telegraph.

HEAD RECEIVING OFFICE,

Exchange, Flinders-lane west.

(For Stations and Receivers, see Official Directory)

REGULATIONS.

1. To lessen as much as possible any liability to error in the transmission of messages from defective manuscript, it is desirable that the use of figures should be avoided, and that words at length be substituted; and the public, in using the Electric Telegraph, are requested to be particular in giving a full and correct address to every message, so that the least possible delay in delivery may occur.

2. Messages will be transmitted in the order of their reception, and no precedence will be allowed, except for special despatches on the service of the Government, the arrest of criminals, and in cases of pressing emergency, sickness, or death.

3. All messages will be held *strictly confidential*.

4. Payment of charges in advance will be required, except for replies to interrogatory messages on which the sender may have written the words “Reply will be paid for;” but special arrangements may be made for the receipt of message payable by the receiver, either by depositing security at the receiving office, or by furnishing written authority covering the cost of transmission.

5. No charge will be made for the date, address, or signature to any message; and it is particularly requested that the two latter may be as clear and explicit as possible.

6. Messages must be written with ink, in a clear and legible manner, and bear a proper date, address, and genuine signature in the usual handwriting of the sender.

7. Messages will be delivered free of charge within one mile of the office; over that distance cab or omnibus fare will be charged, when incurred; and for Messages to be delivered on shipboard, an extra charge to cover the disbursement for boat expenses will be made.

8. Messages may be transmitted in cypher in the English language on payment of an additional charge of fifty per cent., but cypher words must not average more than two syllables.

9. On special occasions, when the communication may be kept open during the night, an additional charge equal to one-third of the ordinary rate will be required upon all messages received for transmission later than 8 p.m.

10. Every reasonable exertion will be used, and precaution adopted, to secure the greatest promptness, accuracy, and despatch in conducting the business of the Telegraph; but no responsibility will be assumed for any errors, omissions, or delays in the transmission or non-transmission, delivery or non-delivery of any message, from whatever cause the same may arise. In order, however, to afford the fullest security for the correctness of a transmitted message, the sender may obtain a copy of the message as repeated back from the Receiving Office, if within the bounds of this colony, upon payment of one-half the original charge upon such message; but in no case will any pecuniary responsibility be recognised beyond the extent of £5.

11. In the event of serious delay occurring to prevent the transmission of a message within a reasonable time, or sufficient to destroy the value of the despatch, notice will be conveyed to the sender, should his address be known, and the message, together with the amount paid thereon, be returned, if desired.

12. In cases where immediate replies are required, the messenger will be instructed to wait five minutes after the delivery, provided the message may contain the words "Reply by telegraph immediately."

13. Printed forms upon which messages should be written may be obtained upon application at the office; but all messages, whether written upon the prescribed forms or upon plain paper, will be considered as tendered for transmission, and transmitted to their destination under the several conditions and stipulations above detailed.

14. The offices will be kept open for the transmission of messages by the public generally between the hours of 8.30 a.m. and 8 p.m. (Sundays excepted).

NOTICES OF THE PRESS.

"Argus," JANUARY 21ST, 1864.

An "Annual Register and Almanac" has been issued from the press of Messrs. Sands and McDougall, for the present year. It is upon the model of Oliver and Boyd's well-known and useful Edinburgh Almanac, and, like its prototype, is full of information of a necessary character. * * * The neighboring colonies have also separate historical and statistical notices. The work, as a whole, is very complete; and so far as we have had the opportunity of testing it, accuracy has been secured. The attempt to establish such an annual is spirited, and will, we trust, be successful.

"Herald," JANUARY 21ST, 1864.

Altogether the work affords a vast amount of intelligence on subjects most interesting to colonists, which must make it valuable for the purposes of reference. It is certainly the most comprehensive work of the kind which has yet appeared in Melbourne, and is published at a price which makes it easy to be obtained by all classes.

"Age," JANUARY 22ND, 1864.

The "Annual Register and Almanac for 1864," published by Messrs. Sands and McDougall, belongs to a class of publications that mark the progress of the colony. * * * It will be evident, therefore, that the "Annual Register" will be of considerable service as a book of reference, in supplying the most trustworthy particulars connected with the position and prospects, social and commercial, of the various settlements in Australia. * * * The "Annual Register and Almanac, 1864," is a convenient and useful volume. It is got up evidently with painstaking diligence. It is a book which everybody should buy, not only because it contains a large amount of useful information, but a great portion of its contents is of that character which, in some way or other, all classes may find serviceable, and could not be otherwise easily obtained.

"Weekly Review and Messenger," JANUARY 23RD, 1864.

Messrs. Sands and McDougall have just issued an exceedingly valuable, "Annual Register and Almanac for 1864." This publication supplies a want which almost all men who have any business to transact in Victoria, whether as journalists, politicians, merchants, bankers, shopkeepers, civil servants, or otherwise, must have felt for years back to be quite imperative. The best description, perhaps, that can be given of the well-packed and handsomely printed volume is that it is a complete handbook to the colony, as it exists at the beginning of the year of grace 1864. It contains, in fact, everything in the way of local information that such a manual can supply. It is, moreover, handy and cheap. No counting-house, office, or store, in the colony can rightly dispense with it.

"Portland Guardian," JANUARY 28TH, 1864.

The "Annual Register and Almanac," published by Messrs. Sands and McDougall, will supply a link long wanted in our statistical economy. * * * The work does credit to the comprehensive plan of the publishers, and we feel convinced the Register only requires to be known to become an universal favorite.

"Examiner," JANUARY 30TH, 1864.

There is no part of the world where an annual volume giving a reliable account of a year's progress is more needed than in a colony like Victoria. * * * Such a work has been at length undertaken by Messrs. Sands and McDougall, and it could not have fallen into better hands. We have received a copy of the first issue of this publication, bearing the title of "Sands and McDougall's Annual Register and Almanac," and can speak of it in the highest terms, not less for what it is than for what it promises. * * * We commend this portion of the "Register" to the notice of the general reader, as containing matter that is sure to prove attractive to him, while we may remark that for purposes of reference—after all the main intention—every page contains information statistical, topographical, and social, of greater value than the records to which we have alluded.

**FORD BROTHERS'
WASHING HATS AND BLOCKS:**

By Royal Letters Patent, in Victoria, New South Wales, and South Australia.

These Hats and Blocks may be obtained through warehousemen, and at the Manufactory, 421 King-street, Melbourne.

Instructions for Washing, Blocking, and Pressing.—The size of both hat and block is marked on them. The hats are to be washed in the tub, not on the block, and should be scalded not boiled; then stiffen them with white starch, and draw them hard down on the block. Dry them in the sun. When nearly dry strip them from the block, and pull them down again till dry, then rub more starch into the brim, and press the brim only on the top side. While warm from the iron, set the brim in the shape preferred. The Zouave is blocked on the Explorer block, and the peak pulled out, the curtain only being ironed. These instructions are sufficient to render a laundress expert with one or two trials.

THE BRISBANE AND ZOUAVE

May be obtained in Black Silk,

No Hats are Genuine, unless they bear our indelible Patent
Mark.

MONSTER CLOTHING COMPANY'S

ARCADE,

21 & 23 BOURKE STREET EAST,

NEAR THE NEW POST OFFICE,

GOLD LAMP BEFORE THE DOOR.

THE Proprietors opened this Establishment for the purpose of giving the same facilities that are to be had in every important City in Europe, viz. :—

That Gentlemen can be supplied with every class of Ready Made Clothing, EQUAL TO BESPOKE, and at such prices that must give the purchaser entire satisfaction,

In cases of emergency, a **SUIT OF BLACK** can be made in Six Hours.

The **MONSTER CLOTHING COMPANY** were determined at the commencement to make a stand against the practice in force in Melbourne, by many *unprincipled Tradesmen*, of making the Customer pay according to his appearance. The Proprietors made one fixed price, and the Stock throughout the entire establishment will be found marked in plain figures, from which no alteration is ever made.

OUR BOYS' AND YOUTHS' DEPARTMENT

Contains the Largest Stock in the Colonies, and for which we have set apart a large portion of our extensive Manufactory, by which we are enabled to sell Our Own Manufacture at a less price than the Imported Article and of superior Workmanship.

Their **ORDER DEPARTMENT**, which is carried on exclusively at No. 23, is replete with the most Choice Cloths of West of England Manufacture, including the finest stock of **Thoroughly Shrunk Tweeds** in Melbourne.

OUTFITS.

Parties going to Europe, America, New Zealand &c., can, at this Establishment, be supplied with every article requisite for a *Voyage of any duration* without delay, Portmanteaus, Bed and Bedding, Crimean and other Shirts, Paper Collars, Towels, Brushes, Combs, &c., &c.

Recently very extensive additions have been made to these Premises, and the public are respectfully invited to inspect them, whether purchasing or otherwise. The improvements insuring the most perfect ventilation renders the whole premises literally a pleasant promenade, and will be found well worth the trouble of a visit.

TESTIMONIAL.

From Captain F. Maedonald, Commander of the East India Ship, the "Lord Auckland."

I feel it a duty incumbent on me to inform you of the very beneficial effect I have received by the use of your infallible Embrocation for Rheumatism, from which complaint I have suffered most severely for more than a month, and was quite unable to leave my bed. I have had the best medical advice, and everything done possible, but to no effect. I heard by accident from a friend of your Embrocation, and immediately sent for a bottle, and after applying it two or three times as directed, I felt very much relieved, and in a week I was perfectly cured. You are quite at liberty (indeed I should wish it) to make what use you please of this document for the benefit of those who may be similarly afflicted. P.S.—I have been afflicted for years with Rheumatism, and never experienced so much relief from any other remedy. You may rest assured I will never put to sea without having a stock of it on board.

SOLD BY ALL CHEMISTS AND PATENT MEDICINE VENDORS, PRICE 2/9 PER BOTTLE.

CAUTION.—See the words "Thos. Feaver's Embrocation" on the Government Stamp.

Testimonial from Dr. A. URE, the celebrated Author of the "Dictionary of Arts, Manufactures," &c.

"Having tested Messrs. BARRY & Co.'s Soluble and other Cocoas, I have much pleasure in stating that I consider them so well prepared, that while they retain the nutritive properties of the finest Trinidad Cocoa Nut, the process of their manufacture is so excellent as to make them particularly bland and acceptable to the most delicate stomach.

"Signed,

ANDREW URE.

"18 Upper Seymour Street, Portman Square,
"January 23, 1854."

BARRY & CO.'s Mustard is manufactured by their Patent Process, by which the pungency and flavour of the Seed are preserved to the fullest extent. Dr. Hassall, in his report on the substances used for food exhibited in the Exhibition, 1862, says:—"The Seed from which BARRY & Co.'s Mustard is made is dried on an improved principle by means of their Patent Apparatus, the action of which, judging from the description given, we should conclude to be very perfect."
