PHASES OF THE MOON.

Last Quarter 4d. 11h. 34m. a.m.
 New Moon.. 11d. 1h. 7m. p.m.
 First Quarter 19d. 1h. 40m. p.m.
 Full Moon.. 27d. 2h. 47m. a.m.

THE GARDEN.—Watch the opportunity of rain to sow turnips, cabbages, peas, beans, radishes, &c. Plant out cauliflowers, cabbages, savoys, brocoli, lettuces, and leeks, which should be watered regularly every evening till they become strong. Earth up potatoes. Every description of fruit and other trees may now be budded, and the orchard cleared of insects, &c. Remove the weeds from flower borders. Propagate shrubs and herbs, and lay plants; such as pinks and carnations.

THE FIELD.—Get in the wheat harvest. Break up the ground for next season, immediately after the crop has been removed, and cross plough land broken up the previous winter or spring. Clean the plantations of hops, maize, or tobacco. Towards the latter end of the month the cutting of the tobacco may be commenced.

PHASES OF THE MOON.

Last Quarter 2d. 7h. 39m. p.m.
 New Moon.. 10d. 5h. 45m. a.m.
 First Quarter 18d. 9h. 59m. a.m.
 Full Moon.. 25d. 2h. 23m. p.m.

THE GARDEN.—Cucumbers should now be watered, but not over the leaves, and always after sunset. Sow succession crops, and transplant where necessary. Prick out celery in the trenches, care being taken to select the finest heads; also plant out lettuces and endive. Collect seeds where ripe, and bend down the heads of onions, if drooping. All the beds should be well looked to and weeded, and this is the best time for making walks. All surplus shoots and spurs should be carefully removed from the grape vines. Those running too high should be lopped off; as also the straggling branches; and when the foliage is too thick, some of the leaves should be removed.

THE FIELD.—This is the last month for getting in the barley crop. Continue to cut and cure tobacco. Hops are now fit for picking, and the maize crop will require to be carefully attended to,

First Quarter 20d. 3h. 18m. a.m.
Full Moon .. 26d. 11h. 55m. p.m.

THE GARDEN.—Sow and plant^t successive crops of brocoli, cabbages, spinach, &c. Sow onion seed for early pulling, and get in the old crop. Thin turnips sown last month, and sow fresh seed. This is the latest month for planting celery. Examine vines as the grapes continue to ripen, and when the leaves are too thick they should be removed. Prune away lateral shoots, and see that all others are in their proper places. Wall and espalier trees should now be carefully attended to, and all loose branches carefully secured. Early flowering bulbs may be planted during this month.

THE FIELD.—Sow mangel wurzel, and towards the end of the month sow wheat. Maize, in forward districts, is now beginning to ripen. Attend to the sweating and curing of tobacco. Sow Cape barley, tares, &c., for early spring food.

First Quarter 18d. 4h. 25m. p.m.
Full Moon .. 25d. 8h. 3m. a.m.

THE GARDEN.—Plant out lettuces, onions and radishes intended for early pulling. Celery plants should be earthed up in the trenches. Transplant a general crop of cabbages, &c.; also plant out cauliflowers in rich ground, and sow seed of same. Sow early peas, beans, &c. Asparagus seeds will now be ripe, and the stems, after the seeds are gathered, should be bent down to decay, or cut off and left on the bed. Remove suckers from all different kinds of fruit trees, as well as any shoots that may arise in the main stem below the budded or grafted part. Make plantations of indigenous trees, shrubs, and herbaceous plants.

THE FIELD.—Sow Cape barley and tares; also wheat, in the beginning of the month. The maize crop is now fit for pulling, and the second cutting of tobacco is also ready. The general crop of potatoes now begins to be fit for digging.

THE GARDEN.—This is one of the most active months in the year for horticultural purposes. All vacant ground should now be prepared by digging or trenching for the crops of the ensuing seasons, and the requisite dressing of manure must now be laid on. Crops for early use may be put in, and successional crops sown or transplanted when necessary. The spinach beds should now be thinned out, the ground forked between the rows, and well watered with liquid manure. If early asparagus be required, it should now be looked to and forced. Continue to earth up celery plants. Fruit trees, generally, may now be pruned; but care must be taken not to remove any of the wood till it is ripe.

THE FIELD.—Continue to sow wheat, but do not defer it longer. Sow also Cape and English barley. White and yellow turnips are now fit for pulling. This is a good season for felling and splitting timber.

THE GARDEN.—Sow two crops of peas, beans, prickly spinach, cabbage, carrots, raddishes and small salad. For the second crop sow early peas and early York, as also large sugar-loaf cabbages, Transplant cabbages, cauliflowers, leeks, onions and eschalots, strawberries, and artichokes. Continue the general pruning, and remove and transplant fruit trees where wanted. Divide the roots of and otherwise propagate the various kinds of herbaceous plants.

THE FIELD.—Sow spring barley, but in fine soil. Continue cross ploughing for peas, and the breaking-up of new ground for maize. Fallows intended for turnip should also receive a cross-ploughing of good depth. The time is also favorable for forming ditches and underground drains, which are of essential necessity, in soils having a substratum impervious to water

THE GARDEN.—Plant lettuces' brocoli, eschalots, and the main crop of cabbages and cauliflowers. Sow prickly spinach, carrots, radishes, early cucumbers, melons, peas, cabbage, brocoli, parsnips, onions, leeks, celery, lettuces, endive, stone turnips, mustard and cress, also parsley, along the edges of the walks. A full crop of the large kinds of broad beans may also be sown. Finish the winter dressing of asparagus, artichoke, and sea kale, and the blanching of the latter may be attended to. Prune gooseberries, currants, and other small kinds of fruit trees, and plantations of the same may now be made at seven feet apart. Dig flower borders as the bulbs make their appearance above the surface.

THE FIELD.—Land intended for potatoes and tobacco should now be ploughed and otherwise prepared, and the planting of potatoes may be commenced.

PHASES OF THE MOON.

New Moon... 6d. 10h. 34m. p.m.
 First Quarter 13d. 4h. 55m. p.m.
 Full Moon... 20d. 9h. 31m. p.m.
 Last Quarter 28d. 11h. 3m. p.m.

THE GARDEN.—Continue to make fresh plantations of cabbages, and draw earth to those crops formerly planted. Make a plantation of Savoy, Scotch kale, Brussels sprouts, and red cabbage. Sow more cauliflower seed, and transplant those remaining in the seed beds. Sow a general crop of carrots and parsnips. Select out some of the finest roots to produce seed. Sow celery, parsley, radishes, pot-herbs, small salad, spinach, and peas. Prune plum, and graft fruit trees. Sow seeds of the hardy annuals, and continue to dig flower borders.

THE FIELD.—Sow peas early as possible. Sow tobacco, and protect the young plants from frost. Continue preparing ground for maize; that which has borne turnip should be cleared, and sown with English barley, about three bushels to the acre. Rye may now be sown, and the wheat crops rolled. Hop plants will require cutting and dressing; select best sets for planting.

THE GARDEN.—Sow cucumbers, cabbages, and brocoli. Lose no time in sowing the general crop of onions. Make new plantations of asparagus when requisite, choosing the best situations and the richest soil. Give the old asparagus beds a spring dressing. Continue sowing succession crops of peas and beans. Sow a full spring crop of early turnips. Sow spinach every fortnight. Potatoes may be planted for a general main crop. Sow celery and radish, and make fresh plantations of sweet herbs. Finish pruning trees generally. Make plantations of vine cuttings of the most approved kinds. Graft fruit trees. Sow tender and hardy annuals.

THE FIELD.—Towards the end of this month sow maize, Swedish turnips, tobacco, lucerne, and all kinds of artificial grasses

 Full Moon . . 19d. 4h. 18m. a.m.
 Last Quarter 27d. 7h. 34m. a.m.

THE GARDEN.—Sow kidney beans and scarlet runners. Transplant leeks, cabbages, and savoy. Sow turnips and early white and purple brocoli. Peas, beans, and other plants should be hoed up. Chili pepper, capsicums, and tomatoes, may be sown in boxes or on a warm border. Everything will now require watering of an evening, but care should be taken not to wet the plants. Where nectarine or peach trees are too much crowded with fruit, they must be thinned. Destroy all weeds as they make their appearance on the borders, and finish all kinds of flower seeds.

THE FIELD.—Finish the planting of maize and potatoes as early as possible. Ground on which timber is felled and burned should now be ploughed, for the purpose of receiving wheat in the following autumn. Fallow ground for turnips may now be harrowed down, and afterwards plough into ridges.

THE GARDEN.—The operations of the first month may be repeated here, especially if the weather should be moist. Continue the sowing and transplanting of successful crops of every description. Vacant ground should be prepared for fresh crops, and plants earthed up, and if necessary, watered every evening. The tomatoes and capsicums should be transplanted into a fine rich mould with a warm but sheltered aspect. Asparagus will soon be ready, but care must be taken not to cut the underground roots or tubers. Globe artichokes are also fit for cutting. Remove useless shoots from the various growing trees, retaining those necessary for the next year's supply. Cut up all the weeds as they appear, and continue the transplanting of the several kinds of annuals, biennials, perennials, and herbaceous plants.

THE FIELD.—Attend carefully to young tobacco, and well clean the ground. Finish ploughing new land, and at the end of the month Swede turnips may be sown.

PHASES OF THE MOON.

New Moon . . 2d. 11h. 57m. a.m.
 First Quarter 9d. 12h. 50m. p.m.
 Full Moon . . 17d. 5h. 48m. p.m.
 Last Quarter 25d. 7h. 31m. a.m.

THE GARDEN.—Sow more peas in wet weather, and seeds of sugar-loaf and other quick-growing cabbages. Plant out others from the seed beds. Gather medicinal and other herbs. Finish cutting asparagus. Plant celery in trenches to bleach. Sow a crop of turnips, and hoe and thin the crops formerly sown. Transplant leeks, and lettuce, and keep up successional crops of radishes. Continue to pay attention to the fruit garden, as recommended last month, and place sticks to trees newly planted, or likely to be affected by the winds.

THE FIELD.—Finish sowing Swede turnips when they are in rough leaf, the ground should be well rolled; and, after being harrowed, give them a first hoeing, and set them out wide. The maize crops and potatoes must now be charred and earthed up, and tobacco plants attended to, by pulling out suckers and removing the superfluous leaves.

NUMERATION.

The numeration of the streets is (or should be in all cases), the consecutive odd numbers 1, 3, 5, &c., on one side, and the consecutive even, 2, 4, 6, &c., on the other. The commencing number 1, will (as a rule), in Melbourne, be found on the north side of the streets running east and west; and on the west side of those running north and south; but in the suburbs this is generally reversed.

The numeration of the suburbs being exceedingly defective, and in many cases quite null, the endeavour has been made, where possible, to give (at all events) an approximate number; sufficient to show on which side of the street, and what part of it, any house is situate.

All streets in Melbourne running north and south, commence their numbers from the Yarra, the southern boundary; those running east and west from Elizabeth-street, which divides the town into two distinct parts.

In Fitzroy and East Collingwood, those north and south number from Victoria-parade or street, the southern boundary; those east and west from Smith-street, the dividing boundary of the two municipalities; Fitzroy running westward; East Collingwood eastward.

In North Melbourne, those north and south from Victoria-street, the southern boundary; those east and west from the extension of Elizabeth-street, which divides the suburb into two parts, the westward portion now forming Hotham Municipality.

In East Melbourne, north and south from Wellington-parade, the southern boundary; east and west from Spring-street, the dividing boundary between the suburb and Melbourne proper.

MELBOURNE PROPER.

1861.

The words in *Italics* placed in the centre of the columns, are simply the names of the intersecting streets, lanes, &c., in their TOPOGRAPHICAL order.

 The insertion of names in an **INNER MARGIN** signifies, that they are in the intersecting street or lane, &c., immediately preceding them, and not in the main street.

A word placed in an outer margin is merely some distinctive name given to a portion of the main street.

a'Beckett-street East—North Side.

Elizabeth-street.

SUBURBS.

EAST MELBOURNE.

1861.

The words in *Italics* placed in the centre of the columns, are simply the names of the intersecting streets, lanes, &c., in their TOPOGRAPHICAL order.

 The insertion of names in an INNER MARGIN signifies, that they are in the intersecting street or lane, &c., immediately preceding them, and not in the main street.

A word placed in an outer margin is merely some distinctive name given to a portion of the main street.

RICHMOND.

1861.

The words in Italics placed in the centre of the columns, are simply the names of the intersecting streets, lanes, &c., in their TOPOGRAPHICAL order.

 *The insertion of names in an INNER MARGIN signifies, that they are in the intersecting street or lane, &c., immediately preceding them, and not in the main street.*

A word placed in an outer margin is merely some distinctive name given to a portion of the main street.

P R A H R A N , SOUTH YARRA, AND WINDSOR.

1861.

The words in Italics placed in the centre of the columns, are simply the names of the intersecting streets, lanes, &c., in their TOPOGRAPHICAL order.

 *The insertion of names in an INNER MARGIN signifies, that they are in the intersecting street or lane, &c., immediately preceding them, and not in the main street.*

A word placed in an outer margin is merely some distinctive name given to a portion of the main street.

Chapel-street—East Side.

Yarra.

SANDRIDGE.

1861.

The words in Italics placed in the centre of the columns, are simply the names of the intersecting streets, lanes, &c., in their TOPOGRAPHICAL order.

 *The insertion of names in an INNER MARGIN signifies, that they are in the intersecting street, lane, &c., immediately preceding them, and not in the main street.*

A word placed in an outer margin is merely some distinctive name given to a portion of the main street.

WILLIAMSTOWN.

1861.

The words in Italics placed in the centre of the columns, are simply the names of the intersecting streets, lanes, &c., in their TOPOGRAPHICAL order.

 *The insertion of names in an INNER MARGIN signifies, that they are in the intersecting street or lane, &c., immediately preceding them, and not in the main street.*

A word placed in an outer margin is merely some distinctive name given to a portion of the main street.

Ann-street—North Side.
